What is a program your library has offered in the past few months that has tied in some way to current events or topics in the news?

### Notes:

## The Civic Lab & Beyond: Civic Engagement through Resources & Programming

### Time to Ideate:

What civic/news topics are coming up in conversation in your community?

What type of program could you offer to explore one of these topics?

What/who are some resources, allies, and/or partners who might assist in exploring this topic?

What is an obstacle you might encounter in pursuing your program?

Who can you count on for support, brainstorming, and troubleshooting as you pursue your program?
