Strengths: This law library holds a unique labor and employment law print and electronic collection which is regularly used. The library staff have a combined over 30 years of law library experience. Interlibrary loan is a popular service offered by the organization's staff. The library staff reported they regularly receive requests for difficult to locate material but have had success in locating most requests.

Challenges: This library's funding is a challenge as the library's budget has been cut and their staff size recently decreased from eight library staff members at their Chicago office to three.
