TO: RAILS Board of Directors

FROM: Deirdre Brennan

SUBJECT: FY2022 RAILS budget and plan of service discussion

As reported last month, we are in the midst of budget preparation right now and it is already clear that it is going to be very tight this year. We have not had any increase in our appropriation since FY2011, despite the fact that prices have gone up and programs and services have expanded as library usage and needs have increased.

We are still refining and collecting cost information in many areas so this is not a final budget. We will present a final proposed detailed budget at the May board meeting. Below are some highlights of changes and issues, as we know them now. Thanks to Jim for his excellent work, as always.

At this point, our budget for the General Fund has expenditures exceeding revenues by \$459,959, while through March of 2020 our expenditures for this fiscal year are \$606,395 below budget. We expect to finish somewhere between \$300K and \$400K below budget this year.

On the revenue side, in FY 22, the most significant item is that Investment Income is budgeted \$143,213 below the prior year budget due to the decline in interest rates. We are budgeting for rates to increase gradually from current levels. I think there is some upside potential to this budget.

The budget amount for the APC grant is unchanged. The budget for fees for services increases approximately \$56,000 and for reimbursements \$182,000, but these increases are offset by the increased expenditures associated with them, particularly for reimbursement.

Total expenditures are at this point budgeted to increase by \$601,509. Personnel expenditures will increase approximately \$269,000. A 3% increase across the board effective July 1, 2021 is budgeted. No increases were included in the FY 2020 budget, but were recently implemented and are incorporated into the FY 20 base amounts. Other personnel related expenditures decline slightly because of a \$36,000 decrease in health, dental and life insurance costs, as we experienced no increase for calendar year 2021.

E-Resource expenditures are budgeted to increase by \$183,000. This expenditures include those for E-Read content and group purchasing and are offset by increased fees for these services.

Vehicle expenditures are budgeted to increase approximately \$71,000 largely from increased fuel prices and insurance costs.

Professional services increase approximately \$104,000 as we have included expenditures for such services as EDI, L-2 and Delivery consulting. Contractual Services expenditures are budgeted approximately \$111,000 higher primarily from increases in Catalog Membership and My Liibrary Is grants.

We are still refining the IT budget, which could result in changes to equipment and telecommunications expenditures.

We also will be budgeting for capital expenditures approximating \$150,000 for server storage replacement, delivery iPads and phone related equipment.

Major programs and budget areas:

Delivery and LLSAP support

These two areas constitute 50% of our budget. As you know, we continually seek ways to make our delivery processes as cost efficient as possible. We are about to issue an RFP to ascertain if additional outsourcing would be more economical than in-house work.

At a previous meeting, we discussed our LLSAP support (which is made up of both annual support and grants to libraries to assist them in joining LLSAPs) and the importance of balancing this financial support with the needs of non-LLSAP libraries.

Consulting and continuing education

Along with delivery, training is a top need for libraries and is heavily used. We are currently evaluating our CE to ensure that we are offering the best range of training for our libraries. We did learn a lot about virtual programs this year – while many people prefer in person training, there is no doubt that we had greater participation during the pandemic because of the virtual nature, and virtual training is also lower in unit cost because we can always include more people on a webinar than in person. Hopefully, we can increase member satisfaction with our CE offerings and do it more economically.

Finance

Jim Kregor has announced his retirement in January of 2022, and some of his finance team will be right behind him. This is a huge loss and we will miss his commitment and knowledge very

much. We are just beginning internal discussions about what organizational changes might be made and how to manage the transition.

Robust IT infrastructure

As we have discussed on several occasions, it is essential that we keep our IT infrastructure robust. We are purchasing laptops this year, but we also need to upgrade our phone system (more compatible with Zoom, no more need for desk phones and other advantages) and purchase servers next year.

My Library Is

Of course, we want to keep the focus on My Library Is which has been a very successful program. We want to expand the grants made to school libraries for these projects to \$50,000.

New website

It is time to upgrade our website, estimated cost is \$57,600.

EDI

We will continue our commitment to EDI, both internally and with our board committee's work to assist libraries. We have budgeted \$28,000 for our consultant next year, a \$2,000 increase over this year.

Strategic planning

As I reported last month, it is time to begin a new planning cycle. It's been 10 years since RAILS was formed, and much has changed, especially over the last year. We need to re-envision RAILS and its role in serving members. I anticipate consultant costs will be approximately \$35K.

Cataloging services

This project will use the information gathered from the special cataloging support survey and establish a centralized cataloging center to provide original cataloging and world language cataloging services free to member libraries. This is not available through the Catalog Maintenance Center in IHLS. We estimate the cost in FY 2022 will be \$50,000. This service helps libraries in expanding access to unique resources by providing useful, timely, and free cataloging. This service provides ongoing cataloging support to specialized languages and format cataloging and will include Spanish, German, Arabic and other languages.

We have included the extensive list of statewide programs in which we participate, and the ones we fund in total. We will be asking for financial relief next year from the state library for both L2 expenditures (\$75,000 which is comprised of \$35,000 ongoing consulting and staff time of Brian Smith and Wayne Dixon) and the world language cataloging at \$50,000.

It is important that you have a complete list of what services we are currently providing, expansion of these services and new services which are needed. Obviously, if the board directs us to make cuts, we will do so, but it will mean a diminishment in services when libraries have discovered they need us more than ever.

RAILS FY 2022 System Area and Per Capita Grant Application

3.0 System Operational Plan

This document presents the Reaching Across Illinois Library System's (RAILS) operational plan for FY 2022. Our overarching goal in implementing this plan will be to ensure that we are providing the best possible service to RAILS member libraries and helping them to provide the best possible service to their customers.

This plan was developed with a great deal of input from RAILS member libraries as is required by the Illinois State Library and administrative rules related to library systems. It follows the arrangement of the revised RAILS strategic plan approved by the RAILS Board in September 2018. All activities included in the plan are aligned with and support statutory priorities for Illinois library systems as noted.

Strategic Plan Goal One: *Promote, support, and expand resource sharing to optimize use of tax dollars and other funding and help libraries share resources to the fullest extent possible*

Objectives	Planned Activities	System Standard
Promote, support, and expand resource sharing among RAILS libraries and beyond	<p>Promote/strongly encourage resource sharing via RAILS communication tools and member encounters. Promote RAILS programs/services aimed at helping libraries expand resource sharing efforts as detailed below.</p> <p>Help plan and participate in meetings with the Illinois State Library (ISL) staff, and Illinois Heartland Library System (IHLS) staff to discuss issues of mutual interest</p> <p>Work with the RAILS Resource Sharing Committee to investigate and recommend ways to improve, increase, and promote resource sharing to all types of Illinois libraries. Goals include increasing the statewide culture of resource sharing, improving awareness of resource sharing, and providing services for the unserved.</p> <p>Collaborate with ISL, IHLS, Chicago Public Library System (CPLS), Association of Illinois School Library Educators (AISLE), Consortium of Academic and Research Libraries in Illinois (CARLI), Illinois Association of College and Research Libraries (IACRL), Illinois Library Association (ILA), Special Libraries Association-Illinois Chapter (SLA-IL), and other stakeholders to expand resource sharing. See</p>	

Objectives	Planned Activities	System Standard
	<p>specific details on proposed collaborative efforts below.</p> <p>Collaborate with and support the work of the International Coalition of Library Consortia (ICOLC).
