Description

DeVry University is private for-profit university with its headquarters in Naperville, Illinois. The university has locations all over the United States including several in Illinois. The main campus, in Naperville, has a small, staffed collection of physical materials that is used by students.

DeVry University was a system member until 2016. They withdrew at that time, reporting that they were closing their onsite library locations. I spoke with Patricia Meyer, Associate Dean, University Library and Academic Student Services. They are interested in regaining membership in order to explore interlibrary loan options. They're also interested in seeing what other resources may be available to their staff including continuing education, grants, and more.
