7. New Business

7.1. Secretary of State Transition Report Library Enhancements Committee Findings

Harris talked about the library Enhancements Committee findings from the Secretary of State Transition Report. Within the report there were two challenges/opportunities specific to this committee's work. The first is the "*opportunity to improve equity of access to libraries and library resources*" and the second is the "*desire to provide a statewide resource package (e.g., databases and online educational resources)*". The report stated that collaboration with partner organizations, such as RAILS, as a strategy to understand the demographic characteristics of unserved areas. The committee discussion included the need for the statewide library resources budget to include an annual increase due to inflation to remain sustainable. Training and marketing materials will be important for library staff to learn the program. Medal brought up the topic of offering a suite of e-books would have an impact on the unserved in Illinois due to the public being able to access outside of a library. Yanikoski warned of the possibilities of offering a suite of e-books to schools that library personnel will be eliminated. The Library Enhancement Committee addresses the topic of e-books within the report multiple times.

Harris reported that member libraries commented about the importance of supporting underfunded libraries at the February 28 RAILS Member Update. The question about adding the topic of underfunded libraries to this committee's charge was discussed. Several members agreed that this topic is a natural progression of this committee's work.

8. Unfinished Business

8.1. Multiple Listing Services Update

Harris reported that there is no update on the multiple listing services proposal at this time, but will keep this topic on the agenda for future meetings.

8.2. Statewide Online Educational Resource Program Update

This topic was discussed by the committee in agenda item number 7.1. In addition, Harris reported that the Statewide Online Educational Resources Program is the Illinois Library Association's (ILA) number one legislative priority. The details on this program will come from the Secretary of State's office and will be shared with the committee at the June meeting, if any information is released.

8.3. Cards for Kids Act and Expansion Update

Harris discussed that from the robust conversation at the committee's last meeting on the topic of the Cards for Kids Act and the expansion of the act, an FAQ and talking points document was created by RAILS staff. At the one-year mark of the expansion (Public Act 102-8043 was adopted on 5/13/2022), RAILS plans to revisit this with the RAILS membership regarding how a library board needs to annually adopt the expansion. Filapek reported that questions he has received from libraries regarding the expansion have focused on adding a policy or a statement to a current policy. A suggestion was made to add this as a discussion topic to the ILA Trustee Forum.
