

Reimagining the Delivery Count

Background

- Purpose of delivery count
- Summer survey review
- Can we gather the same, or better, data using ILS reporting?

Benefits

- Reduce staff labor
- Increase accuracy
- More detailed analysis
- More reliable reporting

Challenges

- Creating ILS reports
- Items not captured by ILS
- Aligning ILS reporting with delivery driver data
- Non-LLSAP libraries

Data Reporting and Submitting

- What do the reports look like?
- Frequency of reporting
- Report submission webpage

Proposed Implementation Timeline

November 2024

- Test ILS reporting with small group of libraries who participated in the survey.
- Assess discrepancies between the count and ILS report
- Prepare process for full LLSAP reporting

May 2025

- Invite non-LLSAP libraries to submit

- LLSAPs send reports alongside the count
- Establish data submission and maintenance process
- Create delivery reports

February 2025
