Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

WCAG 2.1 Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Sections 10.1-10.4 of Chapter 10 - Non-Web documents, and Sections 11.1-11.4 and 11.8.2 of Chapter 11 - Non-Web Software (open and closed functionality), and Sections 12.1.2 and 12.2.4 of Chapter 12 – Documentation
- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the WCAG 2.0 Conformance Requirements.

Why? Although there may be many good matches for your ancestor in our content, we can't return good matches without more information. What should you do? Add details about your ancestor – even an educated guess can increase your chances of getting a high-quality match The above message is not automatically read by a screen reader, although the reader will repeat the text when <u>hovering over it</u> with the mouse pointer.

Chapter 3: **Functional Performance Criteria** (FPC)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	Ancestry Library Edition is coded to work with screen readers and other assistive technologies. Exceptions: • Not all images included as or within content have corresponding alternate text defined. • Some full-text records and embedded images are only available as scanned images.
302.2 With Limited Vision	Partially Supports	Ancestry Library Edition is coded to work with screen readers and other assistive technologies. Text size can be adjusted through standard browser functionality. Browser settings and extensions can allow the user to view pages in high contrast mode. Exceptions: • Not all images included as or in content have corresponding alternate text defined. • Some full text records and embedded images are only available as scanned images. Note: In many cases, there is too much text and handwritten information on the image of a primary source document to fully support alternate text. For example, original U.S. Federal Census schedules.

Criteria	Conformance Level	Remarks and Explanations
302.3 Without Perception of Color	Supports	Color is used to enhance usability by drawing attention to certain areas of the screen. Color is never the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element. If needed, the product's CSS can be overridden using the browser.
302.4 Without Hearing	Not Applicable	Hearing is not required to use or explore Ancestry Library Edition content. Ancestry Library Edition does not provide any audio or video content, playback, or feedback.
302.5 With Limited Hearing	Not Applicable	Hearing is not required to use or explore Ancestry Library Edition content. Ancestry Library Edition does not provide any audio or video content, playback, or feedback.
302.6 Without Speech	Not Applicable	User speech is not required to use Ancestry Library Edition.
302.7 With Limited Manipulation	Supports	Screen elements are designed to be accessible for users with poor motor control (for example, clickable areas are suitably sized and spaced). The user can tab through interactive form elements, such as links, buttons, and inputs. Exception: The product would benefit from the addition of Skip links, allowing a user to skip past common navigation and other elements that display at the top of pages. However, the current application page structure doesn't lend itself well to Skip navigation implementation.

Criteria	Conformance Level	Remarks and Explanations
302.8 With Limited Reach and Strength	Supports	At least one mode of operation that is operable with limited reach and limited strength. For example: • The product can be used using keyboard only. • All interactive elements can receive keyboard focus. • The focus order of form fields is presented in a logical order.
302.9 With Limited Language, Cognitive, and Learning Abilities	Supports	The product provides features that make its use by individuals with limited cognitive, language, and learning abilities simpler and easier. For example: • Form fields are presented in a standard, consistent way across the product. • Form elements are properly labeled.
