Evaluation Methods Used:

Oxford Academics has been evaluated for the Academic Division of Oxford University Press for accessibility of its text and features. The evaluation was conducted in accordance with WCAG 2.2 Success Criteria for Level A and Level AA conformance, and the accessibility standards established in Section 508 of the United States Rehabilitation Act.

A team of experienced accessibility testers has assessed the application and its related material according to the following steps:

- Overall validation of the application against the success criteria for users with visual impairments, hearing impairments, motor disabilities and cognitive impairments.

- Manual evaluation of the Oxford Academics website pages using assistive technology (NVDA – Non-Visual Desktop Access and Voiceover) and assessment tools (CCA- Color Contrast Analyzer, Axe, Text spacing), and keyboard-only approaches to identify issues that would affect hearing-impaired users, and visually impaired users, and users with mobility impairments.
 - For assistive software assessment, actions are performed using a screen reader, keeping the application as an active page, and navigating using the keyboard.
 - For keyboard-only assessment, actions are performed by keyboard keystrokes without the use of a mouse.
- Analysis of colour contrast between text and the background colour using “Color Contrast Analyzer (CCA)” Tool.
- Evaluation of text content scaling, in which a screen magnifier and browser plugins are used to assess the legibility of content when the text is enlarged/zoomed while using browser and application features

Assessment has been conducted on the following platforms:

Device	OS Version	Browser Version	Tools
Desktop	Windows 11	Chrome	NVDA, CCA, Axe
Desktop	Mac Book	Safari	Voice Over, CCA

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criteria.
- **Does Not Support:** The majority of product functionality does not meet the criteria.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.2 Report

Tables 1 and 2 also document conformance with:

- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.
- Note: When reporting on conformance with the WCAG 2.2 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.2 Conformance Requirements](#).
